A former professional snowboarder turned foodie, Back trained in the kitchens of such culinary masters as Nobu Matsuhisa (Nobu Restaurants), and Masaharu Morimoto (“Iron Chef America”), whom he credits with teaching him “the value of using rare and exotic ingredients” in his culinary creations.

The Korean-American chef channels his heritage — including some of his mother’s family recipes — while exploring new twists on traditional Japanese dishes, experimenting with flavors and textures with the aim of leaving guests feeling “both comfortable and adventurous.”
